

**W-Tec 3DL**  
**The massive, stable,**  
**safe, invisible hinge**

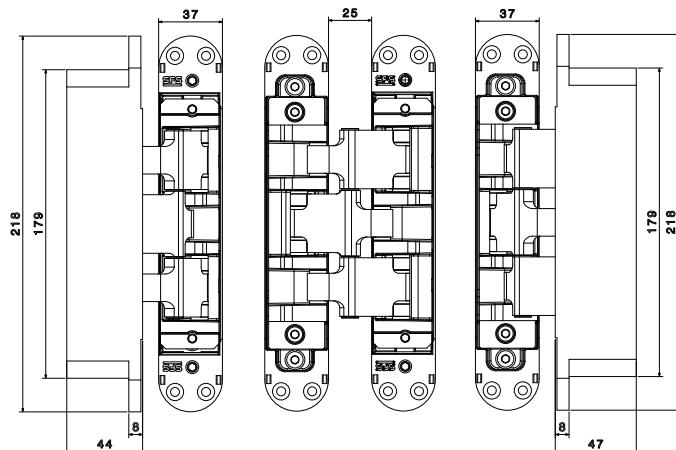

## W-Tec 3DL hinge - It's massive, stable, safe yet invisible

Designers are continually demanding ever higher performance from extremely heavy doors. To meet these requirements, SFS has developed its concealed hinge range to include the W-Tec 3DL.

The W-Tec 3DL hinge combines superior technical values to meet higher resistance and safety standards with an ultra-modern design. Thanks to its internal 7-axis mechanism and the special shape of its exceptionally strong levers, the W-Tec 3DL is totally stable and secure.

The W-Tec 3DL is +/- 3mm adjustable laterally and in height and +/-1mm adjustable in gasket pressure. To facilitate door assembly, the frame can be fixed separately with the hinge case already applied.

- **Stable thanks to the new internal 7-axis mechanism**
- **Easy adjustments all independent and mechanical**
- **Applicable to different profile thicknesses**
- **Wide range of colours on request**
- **For timber, steel and cover frames**
- **Milling templates available**
- **Load capacity up to 200 kg. with 2 hinges**

Hinge order code	Finish	Packaging
1558802 W-Tec 3DL Szs	Zinc GSS	2 pcs.
1558801 W-Tec 3DL Vco	Matt Chrome	2 pcs.

**Milling Jig with insert**

Milling Jig with insert ( Pack. 1 pcs) 1558749

**Support for steel frame**

W-Tec 3DL (Pack.10 pcs) 1558326

**Kit reinforcing plate with spacers and screws for cover frame**

W-Tec 3DL (Pack. 10 pcs) 1558328

made in Italy

Registered design & Patent pending
